- Developed reusable components, enhanced performance, and ensured accessibility best practices.
- Developed reusable UI components to enhance code efficiency and maintainability.
- Optimized application performance and implemented best practices for accessibility.
- Worked with **Git and GitHub** for version control, maintaining clean and structured code.

Technical Skills
- **Frontend:** HTML, CSS, JavaScript, React, Tailwind CSS, Bootstrap.
- **Backend:** Node.js (Expree.js - learning stage).
- **Database:** MySQL, Firebase.
- **Version Control:** Git, Github.
- **Tools:** Xampp, Figma.

Projects
Project Title: GlobalGrad | Frontend Developer | [Github](#)
- Technologies used – **React, Tailwind CSS.**
- Developed a portfolio website generator that allows users to create personal portfolios by filling out a simple form.
- Generates a unique URL for each portfolio, making it easily accessible and searchable on the web.

Project Title: Portfolio | [Github](#)
- Technologies used – **React, Tailwind CSS, Framer Motion.**
- Created a modern portfolio website incorporating newly learned concepts like smooth scrolling and Framer Motion for animations.
- This professional portfolio website is designed for individuals in the IT field, such as mobile developers, web developers, and other tech professionals.

Project Title: BoothBiz | Frontend Developer | [Github](#)
- Technologies used – **React, Tailwind CSS.**
- Enabled stall owners/vendors to efficiently manage stalls and meticulously track expenses.
- Implemented seamless Point of Sale transactions and comprehensive sales analysis features.

Project Title: Indra Forecast | Frontend Developer | [Github](#)
- Technologies used – **React, CSS, JavaScript.**
- Designed a weather app with a Minimalist UI for better user experience.
- Enabled users to input city names to retrieve comprehensive weather data (temperature, humidity, wind speed, UV Index, etc.).

Certifications and Courses
- Advanced React – Coursera
